

ADK ENGINEERING & SOLUTIONS

Website Redesign — Sitemap Audit & Design Approval

www.adkeng.com

Date: 4 July 2026

Dear Team ADK,

This document brings together the two items currently pending your review: the finalized page structure (sitemap) for the new website, and the visual design prototype now ready for your approval.

Part	Contents
Part 1	Sitemap Audit — current pages, proposed final page list
Part 2	Design Approval — finalized prototype, ready for your sign-off

PART 1 — SITEMAP AUDIT

1. Current Website — Page Overview

The existing site (adkeng.com) currently has the following pages:

Page	Current Content
Home	Hero banner, company overview, product highlights, milestones, industries served
About Us	Company intro, timeline, capabilities, industries served
Products	8 categories with sub-model pages: Fiber Laser Cutting, CNC Plasma Cutting, CNC Press Brake, Fiber Laser Welding, PEB Machinery, Shearing Machine, Panel Bender, Spares & Consumables
Application	19 industry tiles (image + label only, no individual pages)
Gallery	Photo gallery
News & Events	Listing page
Career	Static landing page
Clients	Client logos / list
Contact Us	Head office, factory, and branch details

2. Recommended Final Page List

To improve search visibility and give visitors a clearer path to the right information, we recommend the following final structure:

Page	Change from Current Site
Home	Retained, with a clearer primary call-to-action
About Us	Retained, with added leadership, certification, and facility photos
Products	Retained structure; standardized template (specs, brochure download, enquiry) across all models

Page	Change from Current Site
Applications / Industries	Expanded into individual pages per industry, rather than a single tile grid
Gallery	Organized into Machines / Installations / Videos
Clients & Case Studies	Combined with testimonials and written case studies
News & Events	Retained if actively updated
Career	Retained, with live openings if available
Contact Us	Retained, with map embeds and complete branch-wise details
Resources (New)	Blog, downloadable catalogues, and FAQ

3. Page-Wise Content Breakdown

The following sections will appear on each page of the redesigned site:

Page	Sections / Content Blocks
Home	Hero banner with primary CTA; product category highlights; company stats; why choose ADK; featured industries; testimonials strip; enquiry CTA
About Us	Company introduction; timeline (2015–2026); leadership/team; infrastructure & facility photos; certifications; core capabilities
Products (hub)	Category grid (8 categories) with entry points to each product family
Product Category Page	Category overview; list of models within the category; comparison highlights; enquiry CTA
Product Model Page	Hero image; key specifications table; brochure/spec-sheet download; related applications; enquiry form
Applications (hub)	Grid of all industries served, each linking to its own page
Application Page	Industry overview; recommended ADK machine(s) for that industry; sample use case; related client photos
Gallery	Machine Gallery; Installation & Site Photos; Video Gallery
Clients & Case Studies	Client logos; written case studies with results; testimonials
Resources	Blog listing; downloadable catalogues/spec sheets; FAQ
News & Events	Chronological listing of trade fairs, launches, and company updates
Career	Company culture summary; open positions (if any); application form
Contact Us	Head office and factory address with map embed; branch-wise address and phone; enquiry form

4. Product Categories (Carried Over)

All 8 existing product categories will be retained under the Products section:

- Fiber Laser Cutting

- CNC Plasma Cutting
- CNC Press Brake
- Fiber Laser Welding
- PEB Machinery
- Shearing Machine
- Panel Bender
- Spares & Consumables

5. Application / Industry Pages

The following industries will each get an individual page under Applications:

- Aerospace
- Agriculture
- Automobile
- Chemical Plant
- Control Panel
- Elevators
- Food Machinery
- Heavy Fabrication
- Hydraulic Machinery
- Job Work
- Material Handling
- PEB
- Profile Cutting
- Road Construction
- Steel Furniture
- Steel & Metal Work
- Tank Manufacturing
- Textile Machinery
- Tower Manufacturing

PART 2 — DESIGN APPROVAL

6. Finalized Design Prototype

The approved visual design and layout direction can be viewed at the link below:

<https://ac77fd3c-industrial-machinery-web-design.netlify.app/>

This prototype sets the visual theme, layout, and content style to be applied consistently across all pages listed in Part 1.

We look forward to your confirmation.
